

Accessible Transit Specialists

Relentless Commitment to Customers

Our mission is to provide the absolute best products, services and support to our customers. Every vehicle conversion/modification is specifically designed and customised to meet or exceed your unique requirements.

Custom building is a process of in-depth consultation and understanding of your real needs. ATS will offer you expert advice and a range of ideas to achieve your best outcome in relation to OH&S, cost, functionality, simplicity, reliability and ease of operation.

Our genuine commitment to our customers starts from our renowned free onsite consultation and training services, combined with the guarantee to beat any written competitor's pricing. Make sure you take advantage of our onsite servicing and repairs.
