

## Workshop Supervisor

*The Byron Group consists of six Australian owned and operated, solutions based companies that design and manufacture a wide range of high quality innovative equipment for the Health, Aerospace, Emergency Response and Management industries. Known for our high quality products and services we are also a firm of energetic and inspirational people who want to build a diverse and enduring career in a progressive, global organisation.*

Due to our continued success both locally and internationally we are now seeking to expand our team of highly motivated personnel to include a suitably qualified and experienced Workshop Supervisor Heavy Vehicles Department.

Reporting to the State Manager NSW, the focus is people management and processes of the workshop, to deliver quality services to the operations, in an environment of achieving the best outcomes for the company and its business partners.

The preferred candidate will have significant experience in a similar supervisory role, working in vehicle body building in particular in the construction of Cab Chassis products. This will be supported by a solid technical background, obtained from a trade qualification, supplemented by relevant experience and achievement.

This role has direct responsibility for the day to day management and development of a team of up to 20 trades and non-trades employees.

The position will be supported by a strong engineering team and experienced management structure.

Your duties will include but not be limited to the following:-

- Manage work flow on daily activities for all workshop personnel
- Manage all customer enquiries and complaints in an efficient and timely manner
- Provide technical support to section supervisors
- Maintain all manufacturing records i.e. Technical Drawings etc
- Regularly report all activities for your department
- Manage all QA procedures, ensure compliance
- Assist in scheduling for all vehicle build requirements
- Ensure OHS and compliance is always reached
- Implement, manage and review all staff KPIs
- Supervision of Tradesman, Trades Assistants and Apprentices

### **The Candidate:**

To be successful for this role you will need to possess the following:

- A Trade background fabrication assembly and manufacturing within a light Vehicle or Truck body building industry.
- Trade qualifications in fabrication or manufacturing field
- Strong planning, coordination and foresight skills
- OH&S & QA systems knowledge
