COMPLETE DESIGN, ENGINEERING
& MANUFACTURING SOLUTIONS

WHO WE ARE

Armed with experience, expertise and a can-do approach, ATS delivers genuine world-class accessible vehicle modifications, equipment and services.

ATS specialise in access vehicles for the disabled right through to an extensive range of vehicle modifications for the Taxi, Tourism, Health Care & Education sectors just to name a few.

The various types of modifications range from fitting customised accessories to the fully equipped wheelchair accessible vehicle.

ATS is a wholly owned subsidiary of Byron Group Holdings Pty Limited. As a part of the Byron Group, ATS enjoys the stability of a large and diverse manufacturing group of companies.

Our workshops feature the latest in computer assisted manufacturing processes (CAM), computer aided design (CAD), production line assembly for large volume output, and specialist assembly workshops for unique or short-run projects.

With the ability to supply and service customers nationally ATS prides itself on delivering quality products and services with an emphasis on customer satisfaction.

WHEELCHAIR ACCESSIBLE CONVERSIONS - BUSES

We work closely with CTO customers, Retirement villages and disability groups to ensure that budgets and regulatory requirements are met whilst understanding on time delivery.

SPECIAL PURPOSE VEHICLES

We provide custom vehicles from tour bus fit outs and mobile medical units to mobile classrooms and Live animal transport vehicles. We understand all our customers' needs are different and can provide a customised solution to fit your needs.

WHEELCHAIR ACCESSIBLE CONVERSIONS - TAXIS

ATS provides quality modifications and products to the transport industry. We offer the most popular solutions with flexible seating in Wheelchair Accessible Taxis maximising seated and wheelchair occupancy.

VEHICLE ACCESSORIES

ATS can fit your vehicle with the right accessory. We offer a wide range of wheelchairs, restraints, flooring options, ramps, access steps, handrails, special purpose seating, security screens and storage solutions.

WHEELCHAIR ACCESSIBLE CONVERSIONS - VANS/MINI VANS

Our longstanding relationship with Occupational therapists and health professions has equipped us with valuable knowledge to thoroughly understand the special needs of their clients, enabling them to travel in a wide range of specially fitted out vehicles.

SERVICES

Our Research and Development team is equipped to bring the latest of technology and fresh ideas to finding solutions for our clients. We offer on and off site servicing to all our installed equipment and FREE training in most areas.

WE UNDERSTAND THE NEEDS OF CUSTOMERS & THEIR REQUIREMENTS

WE ARE RESOLUTELY COMMITTED TO CONTINUOUS INNOVATION

WE DELIVER ROBUST & RESPONSIVE DESIGN & ENGINEERING SOLUTIONS
