

COMPLETE DESIGN, ENGINEERING
& MANUFACTURING SOLUTIONS

WHO WE ARE

Emergency Transport Technology (ETT) is Australia's leading manufacturer of Emergency Service vehicle solutions, supplying Emergency and Ambulance Services as well as many other clients throughout Australia and overseas.

In addition to ambulances ETT supplies many other custom built vehicles - mining, traffic response, command, mobile clinics, bomb disposal and covert vehicles for large fleet operators. Further to this, ETT is an exporter of ambulances to SE Asia, the sub-continent and the Middle East supported by our office and factory in Dubai.

Emergency Transport Technology is a wholly owned subsidiary of Byron Group Holdings Pty Ltd. As a part of the Byron Group, ETT enjoys the stability of a large and diverse manufacturing group of companies.

Our workshops feature the latest in computer assisted manufacturing processes (CAM), computer aided design (CAD), production line assembly for large volume output, and specialist assembly workshops for unique or short-run projects.

VAN BASED

ETT provides a wide range of design layouts for van based ambulances.

FOUR WHEEL DRIVE

Off road ambulances in both compact and modular designs - from basic life support to medical intensive care.

MODULAR AMBULANCE

ETT has lead the way in the reintroduction of larger platform modular ambulances allowing more flexible workspaces.

PATIENT TRANSPORT & NON ACUTE CARE

Simple to complex patient transport the ETT range of designs and options is extensive.

BARIATRIC

Our world leading Bariatric Ambulance, the fully automated, heavy-lift stretcher and patented loading system have changed the face for patient handling and turned an OH&S nightmare into a dream.

SPECIAL PURPOSES

ETT manufactures many other custom fit vehicles using the same high level of technology employed in ambulance design and construction.

WE UNDERSTAND THE NEEDS OF CUSTOMERS & THEIR REQUIREMENTS

WE ARE RESOLUTELY COMMITTED TO CONTINUOUS INNOVATION

WE DELIVER ROBUST & RESPONSIVE DESIGN & ENGINEERING SOLUTIONS
